Favor Weeding of Disloyal; Induction in Regular Units

"You cannot qualify on loyalty. Those who are disloyal should be segregated from the loyal ones and put in more restricted areas. Those left in the Center should be given every opportunity to obtain jobs on the outside. The old, the physically unable to work and the school age children should be allowed to stay in the centers," stated Senator A. B. Chandler, chairman of Military Affairs special committee, who along with Senator James E. Murray, member, and George A. Malone, special consultant to the committee, visited the Rohwer center Saturday on their tour of investigation of the ten relocation centers.

FULL PAYMENT

People leaving the Center will be given their total clothing allowance for the period of eligibility prior to their departure, announced the counseling service section.

Departees are asked to give a notice of at least three days.

"The present army program of voluntary enlistment should be enlarged and draft-available men should be inducted into the regular army just as any other American."

The senators found the Rohwer center has only 20 per cent, the lowest percentage of acknowledged disloyalty of the five centers where they have held hearings.

In all camps investigated, the residents expressed their preference to being drafted and placed in service with the regular troops.

The Japanese have been classed as 4-C and none has been inducted. Queries made during the investigation established the fact that many of the male colonists would prefer serving with regular Army units rather than in units made up of Japanese only.

ROHWER RED CROSS CHAPTER MEMBERSHIP DRIVE BEGINS

With the formation of the Rohwer Red Cross chapter definitely established, a membership drive covering the entire Center including the Caucasian personnel and the local military police detachment will commence today and continue until Tuesday, March 24.

Dr. Lasaki Yayoshi will

be the chairman of the campaign and Merrill Ziegler, co-chairman, while the block representatives will be in charge of their respective blocks by issuing membership cards and stickers, accepting donations and supplying information.

DEMOCRAT INTERVIEWS PARTY

Definite recommendations will be made by the US Senator A. B. Chandler, chairman of the Military Affairs special committee, and Senator Jas. E. Murray, a member, for more rigid restrictions on the 8460 Japanese located in the Rohwer Japanese colony as the result of their investigations, stated the article in the Arkansas Democrat.

Military Affairs commit-

tee records show the care of the Japanese in the United States today is costing the nation about \$80,000,000 a year. The committee, according to the two members here, will recommend that as many as possible be inducted into the Army and placed in positions where their loyalty may be expressed, and their actions observed, until they have been either proven

capable of Army service in combat units or untrustworthy.

Thus the senators believe, the cost of maintaining these people may be reduced through Army allotments to their families and military maintenance and sustenance for themselves.

There has never been a serious crime committed by any of the colonists since

In regard to the cost of feeding the Rohwer colonists, Johnston said the figure ranged from 37 to 44 cents a day. COOPERATIVES: THE ORIGIN OF THE CO-OP

This is the first of a series of articles to inform Centerites on the history, principles and workings of cooperatives.

What is the origin of the cooperative?

A hundred years ago in 1844, 27 men and 1 woman in Rochdale, England, gathered together and started a cooperative with the grand sum of 28 pounds, corresponding to \$140 in our coinage. Ridicule and laughter greeted their first venture, a grocery store, but in due time they owned factories.

How did they succeed when previous cooperatives had failed?

Most of the experiments before Rochdale failed, because they cut prices and gave benefits to their members before they had sufficient surplus funds. The Rochdale pioneers charged market prices for goods, rebating after the profits had been earned and proper reserves set aside.

What else did they do?

They allotted patronage refunds not on the amount of investment but on the amount of purchase, and they induced members to leave the profit in business. They paid an interest of five per cent per year by issuing revolving fund

certificates. They also deducted 2½ per cent of all profits as an education fund to spread the idea of cooperatives.

The experiences of the Rochdale pioneers are still the fundamental principles of hundreds of thousands of co-ops in both the eastern and western hemispheres.

JOURNAL

1. Was evacuation necessary?
2. Is it in accordance with American principles?
3. Is there any excuse for making wartime distinctions permanent?

The Minneapolis Star Journal in an editorial of 800 words in its Feb. 27 issue, called "The Nisei," boiled the forced evacuation of Japanese aliens and citizens of California down to these three questions.

The paper answered the first question realistically:

1. "If the war department says yes, and

In order for a resident of Rohwer to take advantage of the free services provided by the Evacuee Property office, it will be necessary for him to fill out and sign a request form. In the statement will be a general description of the property, its location, present custodian, if any, and other facts affecting it.

WRITES "THE NISEI"

even if that verdict has been influenced by other than military considerations, the Japanese have been evacuated and military reasons did exist for it.

"The second question is harder to answer," the Star Journal continued, "for the fact is that we are holding American citizens for no other reason than that of racial background. Unquestionably, our external danger justifies the holding of citizens as suspects until their cases can be investigated. That is the official explanation, and the evacuation is probably as justifiable as any other shifting of popu-

lation for wartime reasons." The Journal bore down on the third question in bold print: "It is dangerous and damnable business to be using the war, or to let it be used, as a pretext to strip one group of American citizens of basic civil and economic rights for the benefit of the Americans."

On this form will also be a statement of the results which the owner wants to achieve. For instance, if the goods are to be sold, the expected price will be stated. If the property is for rent or lease, the general terms of the lease and the desired rental will be included.

It should be understood that if the owner of property authorizes the Evacuee Property office to undertake negotiations in his behalf, he should employ no other agents for the same purpose.

If it develops that officials of the Evacuee Property office cannot fully carry out the expressed desires of the owner, but counter offers are received, they will be fully reported and may be accepted or rejected by the evacuee.

He waited. Four, three, two.....

"Yahoo, seconds!" yelled Lil Dan'l as he beat down his opponents and galloped down the aisle.

MANZANAR'S TROUBLES

The spring issue of the Common Ground carried a report entitled, "What Happened at Manzanar," in December. The facts do not prove that Manzanar was a hotbed of pro-Axis sentiment, it stated.

In the flareup that followed an initial disturbance, two nisei were accidentally killed and in the negotiations that followed, the committee of spokesmen for the evacuees forwarded various underlying causes of discontent: "discrimination against Issei (aliens) in favor of the younger, less experienced Nisei (American citizens) in administrative positions and also in the community government; pre-evacuation quarrels and factional disputes; delays in payment of wages and of clothing allowances; variations in quality of food between mess halls; the pro-administration and pro-government policy of the center newspaper; trial of evacuees by civil courts outside the relocation center; uncertainty about the future in this country; financial loss in disposing of property at the time of evacuation; and unfriendly press outside the relocation centers."

"The combination of these influences had made the entire community extremely volatile, ready to explode if a spark touched it off." The negotiations ended the military law.

Manzanar's Project director Ralph P. Merritt in his Christmas letter to his aunt, of which a copy was printed in the Common Ground, said, "Today Manzanar has again become the scene of a test of racial tolerance--the greatest test a democracy has ever met.... Shall the problems of keeping this peace and good will be solved by the military--or by being overtrustful of this show of goodness--or is there some safe middle course through which the ideals of peace and good will can mingle with the realities of race tolerance? If there is an answer, it will be the cornerstone upon which a future peace of the world will rest."

Yes, there is an answer--an answer which will assure for the world a lasting future peace, but that answer depends not only on us in the relocation centers--it lies in the hands of all America.

LODI AND ROYAL DUKES WIN KAYASUGA RINGS 28 PTS. AGAINST DUKES

JIMMIE HAYASHI LEADS WIN

Showing marked superiority in every department of the hot game, the Lodi Golden Avalanches derailed the pennant-bound East Los Angeles A-Jays, 30-23, Saturday before a packed crowd at the high school field. The defeat, their first, knocked the A-Jays off the top position and practically eliminated them from the title contention when they were defeated Sunday by the Royal Dukes, 46-42.

The game was fairly close in the first half but as time wore on in the last half, the Avalanches got their offense clicking and the comparatively low score of the game was due not to the lack of ability to hit the ring but rather from the close defensive play by both teams.

However, Lodi's big scoring trio, colorful Mike Takeuchi, Ich Horimoto and Jimmie Hayashi, provided the fire that burned the undefeated A-Jays. They hit the target for 27 of the team's 30 points which was more than a match for Kayasuga and Kawagoe.

Although closely guarded throughout the battle, the fast Mirror Twins nevertheless were able to execute several of their favorite lay-in shots. Kawagoe made 13 points to share

BOJANGLES WHIP HORNS AND VANDALS

Striving toward the National league laurels from their second berth standing by chalking up two week-end triumphs, the Bojangles vanquished the Green Horns, 46-36, and the Vandals, 63-29.

Collecting 99 tallies in the two encounters in contrast to their opponents' 65, the Bojangles did not run rampant over their adversaries, but remained that unexcitable, smooth-clicking cage squad to emerge ahead.

The Green Horns threatened the Bojangles in a letdown, by leading 10-9 at

Block 16 Wins Horseshoe Tilt

In an interblock match, the Block 16 horseshoe team defeated Block 33, 8-1, Sunday on the winner's pits.

Block 16 swept through the men's and women's singles, men's doubles and mixed doubles and lost their only game in the women's doubles division.

A-JAYS' RALLY FALLS SHORT

The answer to the oft-repeated question, "How can the Mirror Twins be stopped?" has finally been answered with the same ease that cut the Gordian Knot. It is simple--just separate them.

With only one half of the Mirror Twins to reckon with, the Royal Dukes narrowly averted a costly defeat in the last few minutes of their game with the A-Jays when southpaw Hiro Kayasuga started a one-man scoring spree that bogged down just five pts. short of its goal, 46-42.

Faced with an A-Jay team suddenly gone berserk with inspiration, two minutes remaining in the game and only four points separating the two teams, the Royal Dukes played a cool, stalling game that kept the ball from the hands of the furious A-Jays until the final whistle.

In the absence of Kawagoe, who watched the game from the sidelines on crutches, Hiro hit the hoop like mad; but the Dukes, with one eye on the pennant, managed to stay on the long end of the score.--Cho Aratani.

SPINNERS DRUB BLOCK 28,40-4

Starting off with a bang and 40 points, the Spinners romped off with the Girls' league opener Sunday, 40-4.

Of the scheduled five games in the current Girls' Basketball league, the only game played over the week-end was the Spinner-Block 28 slaughter.

With the forward wall intact from the state champion Busy Bees, the Spinners are definitely the class of the league. Eabs Inamasu and Lily Kusama made 24 and 12 points each to lead the Spinners' attack.

Green Horns Dump Smiths

The Smiths made a valiant try to climb out of the cellar, but the Green Horns had other plans which did not coincide with those of the Smiths.

The Green Horns, paced by guard Bill Hattori, piled up 32 points to the Smiths' 17. Youth and inexperience told heavily in the defeat of the high school lads as the Green Horns came through time and again to score almost at will, while the ragged Smith machinery slowly fell to pieces.

scoring honor with Jimmie Hayashi, while Kayasuga came through with 8 points mostly in the second quarter when the Lodi substitutes cluttered the court.

Yet it was the brilliant all-around playing of diminutive Hiro Kayasuga that kept the A-Jays from collapsing completely. Regardless as ever sixty per cent of the team, the chunky speedster, fresh from Manzanar, showed all-star form with his lightning action.

The Avalanches made the week-end a smashing success by easily dumping the Stockton Cardinals, 51-30, Sunday. Bill Kagawa and Harry Oshima led the slaughter with 12 and 10 points, respectively. Sanji Fukuyama with 15 points stood out for the Cards.
